LESSON PLAN

Activity 1

- ❖ Put pupils into groups, each having a large sheet of paper. Use a group sorting activity to do this (e.g. line up in birthday order.) Consider and brainstorm the types of risk which young people of their age take.
- ❖ Underline positive risks in green, negative in red.
- ❖ Feedback – discuss reasons why young people take risks.

Activity 2

- ❖ Give pupils the cut up scenarios – ask them to place these on a risky/safe continuum. Discuss what would make the scenarios more risky/safe. This can also be done as a whole class circle-time activity, in which one scenario at a time is explored.

Activity 3

- ❖ In pairs get them to write a list of people in school who can help them. Ask them to put a C against anyone who they feel would offer a confidential service.
- ❖ It may be useful to make sure that the class are clear about what a confidential service is able to offer.
